ICE CREAM AND SODA WATER

### Is This Vacancy Unfilled in Your Wardrobe

Pile fabrics always so dear to royalty have come back into popularity with a great bound, and the woman of taste and discretion insists this season upon having in her wardrobe at least one coat of Velour, Plush or similar material. We were fortunate in securing for our stock these especially bewitching Velour and Reindeer cloth models so soft and rich to the eye—so luxurious to the touch—so graceful and faithfully fitting. NOTE the trimmings and other style touches in the models illustrated.

Plushes, Reindeer Cloth, Velours, Velvets, prices \$17.50 to \$35

### THE COAT PROBLEM

Shall it be of richly quiet black broad cloth with its large velvet cape collar finished with broad cloth and a fancy piece down the side to give fullness? Shall it be of more color full green wool Velour with a racoon fur adding smartness to its cape collar? Or shall it be of blue Velour with deep pockets and with its sailor collar enlivened by a band of fur? Or perhaps of a brown and white mixture with belt from side to front, with its smart yoke in front and with a particularly handsome balmacan effect. Whatever your answer may be YOUR COAT is here, the one onliest coat that needs but the touch of your personality to make it the most wonderful of all coats.

And the prices are right

### Fashion Minus Extravagance

Made of especially handsome and wear worthy fabrics, they are cut on the season's most favored lines and to what ever use put, will be invariably pointed out as genuine apparel. In this department we have novelty cloakings, fancy plaids, wool poplins, sibilines and fancy mixtures. Colors—all the latest combinations of blue black, brown and green mixtures, all sizes.

Prices from \$10.00 to \$25.00

It is both economical and smart to get the maximum of wear and comfort out of every single article of apparel. Many women cannot, without extravagance, purchase a separate coat or suit for every occasion of society or sport. The AUTOMOBILE COATS illustrated are perfectly adapted to that pastime and yet are just as perfectly and correctly suited to street wear.

### Work That's Play

There are many things about the house—furniture, woodwork, floors—you'd like to refinish if you felt you could do good work. You can do good work, and do it easily, if you use—

### Chi-Namel

No matter how roughly you apply it, Chi-Namel flows into a smooth surface that doesn't show brush-marks. And besides spreading easily, Chi-Namel gives a finish so durable that you can dent the wood without cracking the varnish. It is not affected by hot or cold water; nor will heel marks show on Chi-Namel floors.

There's a Chi-Namel product for every household need—for finishing or refinishing furniture, floors, wood-work, doors, hardware, radiators, automobiles; for enameling wood-work, bath-tubs, sinks, fly-screens—each kind made on a Quality First basis.

We will gladly let you try the Chi-Namel Graining Process. You can see for yourself, before you buy, how easy it is to make old wood-work look like polished hardwood.

For Sale by Ontario Furniture Co.

### We Eat to Live

No orders too small for attention, none too large for our capacity.

While we all eat to live it's up to all of us to get the very best food to eat, and to get it as cheaply as we can. We do not only claim to have the best, but also the best for the least money.

We buy for two stores in large quantities, and can sell for less than most stores and still makes a reasonable profit. All we ask is to let us figure on your bills, get our prices before you buy, it will save you money.

Come to the County Fair while you can come for one half regular fare, see the Fair, and do your fall buying at the same time.

Wilson Brothers

### Are You Wasting The Price Of a Titan Engine?

TITAN engines burn kerosene. Average cost of gasoline so far this year, 16.9 cents per gallon. Average cost of kerosene 7.7 cents per gallon. Gasoline costs over 100 per cent more than kerosene. Gasoline is going up steadily. Kerosene is not. At present fuel prices Titan engines, burning kerosene, save their owners about 1.1 cents per horse power per hour. Are you running a gasoline engine? What horse power is it? Figure what you'd be saving if you had a Titan kerosene engine. Rather surprising, isn't it? How long would it take that saving to pay for a Titan engine of the same size?
